PLANEX has entered into licensing agreements with BitTorrent, Inc of a peer-assisted, digital content delivery platform.

Tokyo Japan – Sep 9, 2006 – PLANEX COMMUNICATIONS INC. (CEO: Katsuaki Kubota headquartered at Shibuya-ku Tokyo. hereinafter called PLANEX) announced it has agreements with BitTorrent, Inc. (CEO: Bram Cohen,, headquartered in San Francisco, California) which is home to the world's leading open-source file-sharing protocol by the same name, specifically created to overcome the obstacles of transferring large files over the Internet.

The agreements enable Planex to develop and launch network devices configured with such a BitTorrent Protocol. Planex is now planning to sell BitTorrent configured devices from now on.

In addition, the influence of our current revenue coming from this business tie-up has now been calculated. We will inform as soon as it's finished.

【About BitTorrent】

BitTorrent is a peer-assisted, digital content delivery platform created by Bram Cohen in 2001 that provides the fastest, most efficient means of distributing, discovering, and consuming large, high-quality files on the web. It leverages the install base to simultaneously increase transfer speeds and decrease bandwidth costs during the download process.

BitTorrent an expected technology has been offering variety of web services and just inked a contract with major film companies for delivering their alluring contents.
