

10M Compact Flash Type LAN Adapter **CF-10T**

Feature

■ Connects Your PDA to a 10BASE-T Network

Simply insert the CF-10T into the compact flash slot of your PDA, and it is ready to send/receive data in almost any 10BASE-T network.

■ High Speed Data Communications

Most of the PC adapter kit supplied with PDAs (or those sold separately) support serial connection which supports data transfers only up to 115.2kbps. In contrast, the CF-10T utilizes 10Mbps Ethernet to establish speedy data communications with other devices. With the CF-10T, your daily data exchange between the PDA and your PC can be done in a very short time.

■ Windows CE Ready

The CF-10T supports PDAs equipped with Windows CE 2.0 or greater. When used under Windows CE 2.11 or greater, the adapter utilizes a generic driver supplied with WindowsCE 2.11: since there is no need to install its device driver, you can connect to a 10Mbps network right away!

■ Supports Notebook PCs

The network adapter also supports Windows 95/98/Me, Windows 98 Second Edition, Windows 2000 as well as WindowsNT 4.0/3.51. An optional compact flash adapter "CF-PCM" is also available to provide connectivity between the CF-10T and notebook PCs with PCMCIA support.

■ Low Power Consumption

Worried about the adapter consuming too much power of your PDA batteries. The maximum power consumption of the CF-10T is 85mA at 3.3V, and the figure is further reduced to 60mA when run in the power-saving mode. Being a genuinely power-thrifty device, the CF-10T can provide network connection much longer than other similar products.

■ Handy DirecDock Design

The network adapter utilizes DirecDock, a seamless integration of a network card and a RJ-45 connector. Your worries about losing or damaging a special media coupler are

over- finally! Just plug a network cable into the DirecDock connector, and you can quickly access the information you need. The CF-10T with DirecDock promises you unmatched durability and ease of use.

■ **Any non-WindowsCE system requires the CF-PCM (optional)**

Option Compact Flash Adapter

Model Name:FCF-PCM(CF-10T/CF-100TX)

Specifications

Model Name		CF-10T
Supported Standard		IEEE802.3 10BASE-T
Data Transfer Speed		10Mbps CSMA/CD
Connector Type		RJ-45 x 1(DirecDock Connector *1)
Bus		CompactFlash Specification rev1.4 Compliant
LEDs		Link ,Act
Power Spec.	Operating Voltage	3.3V
	Power Consumption	85mA Max.
Operating Temperature		0 - 40 degrees Celsius
Operating Humidity		35 - 85 % (non-condensing)
Dimensions		88(W) x 3.3(H) x 42.8(D)mm 88(W) x 16.2(H) x 42.8(D)mm (includes connector part)
EMI		FCC Class B ,CE ,VCCI Class B
Supported Platforms		PDA with a compact flash slot, hand-held PC *2
Supported OSes		Windows CE 2.0 or greater, Windows 95/98/Me, Windows 98 Second Edition, Windows 2000 Professional,WindowsXP, Windows NT 4.0/3.51
Packing List		CF-10T, Driver Diskette

*1 "DirecDock" is a trademark of Planex Communications Inc. (patent pending)

*2 Some PDAs may not support the CF-10T due to

- 1) their designs/forms that physically prevent attachment of the adapter and/or
- 2)certain specifications of the compact flash slot on the PDAs.
