

Smart Media - Compact Flash
(Type II) Adapter
CF-SM

Feature

The CF-SM enables your computer to write and read data to and from Smart Media through a compact flash slot.

- Simply attach the CF-SM to Smart Media, and your computer with a compact flash slot (Type II) is ready to write and read data to and from Smart Media via the CF slot.
- Furthermore, you can also attach the CF-MS - Memory Stick assembly to:
 - [CF-PCM2](#)(GW-CF110 option: Compact Flash Type II - PCMCIA Type II Adapter) to access the storage media via a PCMCIA Type II slot, or
 - CF-U11(Compact Flash Type I/II - USB adapter) to access Memory Stick via the USB port.
