 1. Copy the content of one external USB mass storage device to another attached storage device
 2. Reset the configuration of the storage server to factory default settings
- Easy web interface to set up and monitor NAS server
- Support Firmware upgrade and reset to default
- Support Backup and Restore settings

Enjoying High Quality Videos with BitTorrent and DLNA!

Specification

Model	MZK-NAS02SG
CPU	Storlink SL3516
Flash	8MB (supports up to 16MB)
RAM	DDR 64MB (supports up to 128MB)
Interface	10/100/1000Mbps RJ-45 x 2 (Auto-MDI/Auto-MDI-X) Power Jack x 1 Copy Button x 1 Release Button x 1 USB port x 2 Power switch x 1
Hard Drive	SATA x2 (Max. 2TB, 1TBx2)

RAID	RAID 0, RAID 1
DLNA	Support
USB Storage	Support
File Server	Multi-language support CIFS Protocol (Samba) FTP Protocol FAT16, FAT32, NTFS, EXT2 and EXT3 file systems Unicode file system
Applications	Web download client FTP download client BT download client UPnP media server like Xbox 360, Sony PS3, etc. iTunes server
NAS Management Features	Workgroup setup User account management Samba share permission management FTP share permission management Default share policy (Read & Write) HDD partition and format tool HDD software unplug tool HDD status Cross HDD file copy
System Management	IP setup Dynamic IP (DHCP client) Time zone setup Remote upgrade Web Interface Management Reset to Factory Default Software reset Backup/restore configuration
LED	LAN x 2, HDD x 2, Power x1 , USB x 2
Language	English / Chinese / Japanese
Power Input	Adapter12V/4A
Operating Humidity	5 ~ 95% (non-condensing)
Operating temperature	0 ~ 40°C
Dimension	165mm(H) x 188mm(D) x 80mm(W)
Weight	1.2 Kg
EMI Certification (Class B)	CE / FCC / VCCI / BSMI
